

Understanding Britannica Remote Login Options

If your school subscribes to any of the Britannica products you can access them from home using one of the following most popular options.

OPTION 1:

Your school's SSO or LMS solution

Log into your school's SSO or LMS solution (such as Clever, Canvas, ClassLink, or Schoology) and click the link to the Britannica product or follow the instructions provided by your school administrator.

OPTION 2:

Access ID and Passcode

If your school does not have an SSO or LMS solution, you can access Britannica by entering the Access ID and Passcode provided to you by your school administrator or teacher. This is a shared login that everyone at your school can use.

The screenshot shows a blue login box with the text "Enter the Access ID and Passcode provided by your school to access Britannica." Below this text are two input fields: "School Access ID" and "School Passcode". To the left of the input fields is a circular icon containing a school building, with the word "School" written below it.

Note: **School Access ID** is different from your **personal account** which is only used by you. You can sign into or create your personal account by clicking the user icon in the upper right of the page after you enter the Access ID and Passcode for your school's subscription.

If you don't have your Access ID and Passcode, contact your school administrator or teacher or you can contact Britannica Technical Support at edsupport@eb.com or **(800) 621-3900**.
