

Remote Resilience

Checklist

Our instructional tools have both online and offline options so that students without proper connectivity or devices are not disadvantaged.

We have adopted digital tools that allow for student choice in demonstrating their understanding with a variety of media.

Our digital instructional tools support a wide variety of languages to help parents and families who may speak a language other than English at home.

Our instructional content and supporting materials reflect a culturally diverse perspective that is free of bias.

Our digital content is accurate and current.

The digital resources used by teachers have copyright and licensing status for any third-party content is appropriately cited and easily found.

Digital content provided is appropriate to the reading level of the intended learners and offers opportunities to scaffold and differentiate for individual learners.

Our digital content provides materials and activities to meet the needs of diverse learners through vocabulary and read-aloud support tools.

Our online instructional materials allow for the teacher to adapt learning activities to accommodate learners' needs and preferences.

Digital and media literacy skills are incorporated and taught as an integral part of the curriculum.
